

# When was the Bible made?

God wrote the Bible over many, many years, a long time ago-long before computers, cars, and even before books. The people who wrote down God's words used scrolls of paper made from papyrus leaves and animal skin. They wrote it over a period of 1,500 years, from the time of Moses to the apostle John. Even though the Bible was written hundreds of years before we were born, it is still up-to-date. When we read the stories and understand what God is saying, we learn how we should live today.

Long ago God spoke many times and in many ways to our ancestors through the prophets. But now in these final days, he has spoken to us through his Son. God promised everything to the Son as an inheritance, and through the Son he made the universe and everything in it.

Hebrews 1:1-2
