

Why did Jacob trick his dad?

Isaac had two sons, Jacob and Esau. Jacob tricked his father because he wanted the inheritance that should have gone to his brother. Jacob was selfish and greedy. Also, he was his mom's favorite child, and when his mother told him how to trick his father, he went along and did what she said. Although Jacob received the inheritance, his actions broke up the family and caused everyone a lot of grief.

[Rebekah said,] "Now, my son, do exactly as I tell you. Go out to the flocks and bring me two fine young goats. I'll prepare your father's favorite dish from them. Take the food to your father; then he can eat it and bless you instead of Esau before he dies" (Genesis 27:8-10)
