

## Where can I find some friends?

Potential friendship is everywhere, usually close by. One of the best places to look for friends is in a group or activity. If you play soccer or sing in choir, for example, you probably will find friends there. Or someone who sits near you in class might turn out to be a good friend. Also consider your church and neighborhood. You might look for someone who needs a friend just as you do. Maybe there is a new family in your neighborhood or church with a child your age. Or maybe you have seen a new student in school. People like that need friends. Perhaps you can be a friend to them.
